GPT-4o ☐ ☐ ☐ ☐ ☐

The diagram illustrates a self-supervised learning loop. It features two identical blocks, each labeled 'GPT-4o'. The first block has an input sequence of 10 tokens (represented by boxes) and produces an output sequence of 10 tokens. A bidirectional arrow connects the output of the first block to the input of the second block, indicating that the model's previous output is used as its next input for training.
