ideogram

ideogram is an AI image generator that can generate images from text prompts. It is available as a web application and a mobile app. ideogram is powered by a proprietary AI model that can generate high-quality images from text prompts. It is available for free, but there is a paid subscription option for users who want to generate more images or use more advanced features.

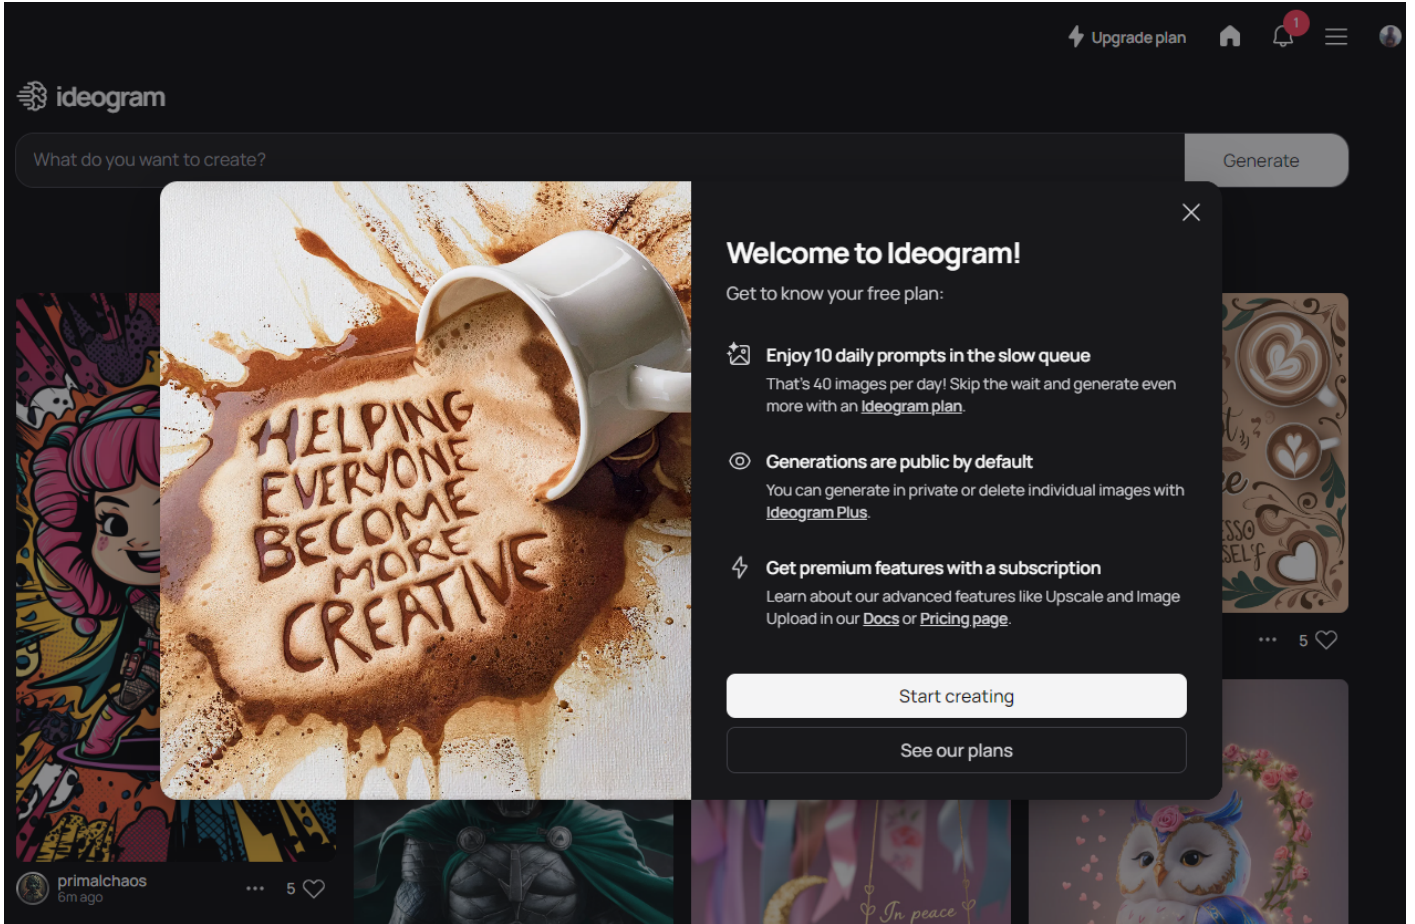

ideogram offers a free tier with 25 image generations per day and a paid tier for \$4.99 per month (Basic) or \$100 per month (Plus). The paid tier offers faster generation times and higher resolution images.
